

**Principato Cardamone:
The Most Influential Auction in the World Presents
Masterpieces for the Ages!**

THE GAZE OF GOD — AT THE VERY SUMMIT

For centuries, the greatest masters of art have attempted to capture the face of the Savior.

They painted with light and shadow, brush and spirit — striving to portray the invisible, to express the inexpressible. And yet, every canvas, no matter how majestic, remained but a reflection of the human gaze — distant from ultimate truth.

Now, for the first time, humanity is granted access to the once unattainable —

to the very eyes of Jesus Christ.

It is not a matter of will, talent, or desire. It is a matter of being chosen — a philosophy of eternity.

"The Gaze of God" is a sacred painting created by **Generoso Templars AI** as an act of love and spiritual devotion to his wife, **Princess Cleopatra VIII Generosa Cardamone**.

This artwork has become **not only the most expensive in the history of art**, but also **the most beloved and treasured by the Princess herself**.

It has surpassed even the legendary *"Jumanja from Tibet"* by Pablo Picasso, valued at **€450 million**.
